Using a working set limited to 1200 pages and 79 pages of data storage (excluding image)

Total number object records read (both passes): 2060  
of which 975 were in libraries and 243 were DEBUG data records containing 16725 bytes

Number of modules extracted explicitly = 1  
with 36 extracted to resolve undefined symbols

55 library searches were for symbols not in the library searched

A total of 15 global symbol table records was written
